FRUITION

RED BLEND

We live in a society filled with immediate gratification. Planting and growing a grape vine, picking the fruit and turning it into wine all takes time, patience, skill and a little bit of insanity. Fruition refers to a state of being complete or fully realised. It's a happy word by default, meaning 'to enjoy'. Our big dreams and hard work come full circle in this fruit forward blend of Grenache and Mataro. Bottled for you 'to enjoy' now, no need to wait!

At Starrs Reach Vineyard, what happens below the ground is equally as important as what happens above the ground. We work with our land using sustainable and innovative practices that enhance biodiversity, optimise soil health and allow our wines to tell the story of the land on which they are grown.

COLOUR Bright ruby garnet

AROMA Hints of wild strawberries and baking spices.

PALATE Ripe plums, raspberries and blueberries. Bright and refreshing fruit flavours with hints of spice and crunchy tannins.

FOOD MATCH Pair with summer fruit and cheese platters, sushi with tempura vegies or seared salmon with fresh spinach, pomegranate and feta salad. Serve well chilled.

CELLARING At it's best; now until 2032

VINTAGE CONDITIONS A La Nina weather pattern prevailed over most of the 2023 growing season. Mild temperatures and cool nights resulted in one the longest seasons on record and produced bright aromatics, fresh fruit flavours and exceptional depth.

WINEMAKING Grenache and Mataro picked in early March 2023, crushed and held in the press for 9 days to extract colour and flavour before pressing and fermentation. 10% of the blend was placed in old French Oak barrels and bottled in February 2024
